

Monthly Consulting - Consulting Services Scope of Work Addendum # _____

Company: _____ (hereinafter “Company”)

Consultant: Crown Investor Institute, LLC (hereinafter “Consultant”)

Upon execution of this *Consulting Services Scope of Work* it shall become an Addendum to that certain Consulting Agreement (the “Agreement”) executed between the parties on _____ and is considered incorporated into and a part of that Agreement by reference.

Definition of the Service: A monthly consulting agreement where Consultant guides the Company through the major building blocks of a property management company including customized property management agreement (PMA); Housekeeping, Ancillary and Entity documents (plus library of 58 training videos); customized lease; Housekeeping and Ancillary documents (plus library of 35 training videos); Scope of Service; onboarding documents and training videos; Qualifying Guidelines (plus library of training videos); Owner Handbook; owner side revenue streams; Tenant Handbook and tenant side revenue streams. Optional topics are outlined below and are identified by the Company if this list of document packages is not their priority. (Over \$6,500 worth of document downloads and training videos.) **This is the document part of this program.** (View attachment for more details on the document packages that are included.) This package is FRONT LOADED to you.

This package also comes with monthly consulting slots with Crown’s staff including Robert, Monica, Tony and Denise, access to staff for time-sensitive events Company needs assistance with, plus access to the Customer Support Center. **This is the consulting part of this program.**

This is about **putting our shoulder behind your company for the duration of this Addendum** (or longer if you want to continue) and unloading all we know about this business. The price includes all the document packages at NO EXTRA COST plus help implementing them.

We think building a customized management agreement (and lease) should be tackled first because it drives the rest of your management system. You can change out and reprioritize anything you like based on your sense of what the priorities are for your company. Our experience is **the foundation of your business is the PMA so that should be first**, however you can select what’s first and what follows.

Note: You do not gain access to all the Crown documents the first day of this relationship. The document packages are available as we attack the topic (document package) and the next package is released when we attack the next topic. We would NOT expect to get through the document packages listed above in six months but that depends on how much time you have to dedicate to the process. We call this working ON the business and many managers only have so much time to allocate to that process. How quickly we complete these packages is up to you. If we don’t work through each document package, you still get all the document packages (and video libraries) listed above. You won’t miss out on anything if you need to slow down the process. Implementation takes some time.

Customers report to us that THIS CONSULTING PACKAGE HAS MADE THEM 10 TIMES WHAT IT COSTS SO YOU’LL BE PAYING FOR THIS OUT OF PROFITS; NOT OUT OF POCKET.
